WE'RE FOR AMERICANS!

"The heat way to get rid of a bad law is to enforce it."—General Grant.

"SENATOR HANNA has the grip." is the message that comes over the wires. He's had it for some time—the grip on the next Senatorship from Ohio.

ONLY twelve men and one woman were present at the annual meeting of the once famous Cabbet Club in London. This is an indication that Free-trade has had its day, even in Free-trade England.

The yard that Governor BUSHNELL would accept, and was even scheming to secure, the Senatorship for himself, by means of a combination nine parts Democratic and one part anti-HANNA Republican, seems to have been abandoned. That was found to be too rank for the credulity of even the present excited buckeye era.—*Washington Star*.

At the late election the Populists lacked 244 votes of casting 2 per cent. of all the votes cast, and will have to get on the ballot next time by petition. Wonder if "Pop" JO. A. PARKER will ever tumble to the fact that his party is too dead to bury?

It is said a New Yorker has introduced a barkless dog. Here's hoping the songless woman will soon come.—*Eichhorn Paragraph*.

Bless your soul, Brother, they're here already—at least there are mighty few of 'em—but the "schrecker" is abroad in the land.

THE LEDGER notes with pleasure the improvements in the Flemingsburg Gazette. It has a handsome new dress, and is "chock full" of the freshest local news. These, with its soundness on the questions of the day, should make it a welcome and indispensable visitor to every household in Fleming county.

AFTER all the Democratic howling about the mismanagement of Penitentiary affairs, State Inspector LESTER'S report on the chain contract will show that the state has not lost money by the contract, but has actually made a profit equal to from seventeen to twenty cents per day for the labor of each convict employed.

KANSAS was carried by the Republicans at the recent election. The latest returns, with only a few missing precincts, give the Republicans 138,470 and Fusionists 129,351, a Republican majority of 9,110, as against a fusion majority for President last year of 13,166. The Republican net gain is 22,355. This, says the Atitlana Journal, would be one of the most surprising results of the election if the news was told of any other state save Kansas.

CHAIRMAN DINGLEY has a pleasant surprise in store for Congress when it comes together in December. The workings of his new law are proving extremely satisfactory, and he will be able to point out the fact that it is already earning much more than did the Wilson Law in the corresponding period of its existence and that there is good reason to believe that the revenues under it will be ample and that the reciprocity features of the bill are likely to result very advantageously to American citizens and those seeking markets abroad for their productions.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains like this is evidence of kidney trouble. Too frequent desire to urinate or pain in the back, kidneys, liver, bladder and every part of the urinary passage. If this lasts inability to urinate, scalding pain in the bladder, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cure of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free.

FULLY EXPLAINED.

How the Governor's Daughter Was Chastised in the Kentucky.

There has been a good deal of unwaranted talk to the effect that Miss Harriet Richardson of Lexington had been "appointed" to christen the battle-ship Kentucky before the Governor was asked to designate his daughter, and before these requests became so general that the Governor consented to name Miss Bradley.

It seems that Miss Richardson, while in Washington some time ago, was told by the outgoing Democratic Secretary of the Navy that he would like for her to christen the Kentucky. She readily accepted what she thought was a preferred honor, and came home with the idea that the master was settled. She told some of her friends what then the Secretary had said, and went to work making preparations for the event. She did not know that it was the custom for the Secretary

of state to be present at the launching.

RICHMOND, Ky., Dec. 2.—Because he was engaged in a social engagement, Judge John Moore, a well-known lawyer with a singular and bold Eduster's face with bird shot, making an ugly wound. Both are colored and live near Stanford. Both were jailed.

Superintendent William Resigne. Nicholasville, Ky., Dec. 2.—William Resigne, superintendent of the state road which runs through this Jessamine county, Wednesday afternoon resigned his position as superintendent and as director of this road to Gov. Bryan.

Another Curious Victim. RICHMOND, Ky., Dec. 2.—William Moore, aged 19, son of John Moore, died here Wednesday night from the excessive use of cigarettes. It is said he regularly consumed a half dozen boxes of the poisonous little luxuries followed the usual custom.

Then comes from the Louisville Board of Trade, Lexington Chamber of Commerce, other official bodies and number of private citizens poured into the Governor asking him to name his daughter, which he has agreed to do.

The name of Miss Richardson was never even suggested to the Governor, and he did not know that she contemplated receiving the honor. Even the papers of Lexington, where Miss Richardson lives, warmly endorsed the selection of Miss Bradley, and probably knew nothing about Miss Richardson's ambition or the suggestion made to her by the retired Secretary of the Navy.

Louisville, Ky., Dec. 2.—At a meeting of the Kentucky Distillers association, called to consider the question of restricting production for a term of time, a plan was adopted and put by which to keep down the output of 600,000 to 30,000,000 gallons yearly. RIOT IN PRAGUE.

The Streets Held by Twelve Battalions of Infantry.

Windows of Jews' House Displaying German Flags Demolished.

Descent Made on German Quarter, and House Where Prince of Wales of the Rockies Is "Down With the Germans" "Down With the Jews."

THE PRAGUE. Dec. 9.—Wednesday the streets were held by twelve battalions of infantry. The windows of the houses of the Jewish quarter, in several streets of the city, were smashed and the surrounding buildings are threatened by the burning embers. The loss will be heavy.

In spite of the heavy large Czech mob and a descent during the evening upon the German quarter, and plundered houses and shops in several streets. The furniture of a well known German cafe was piled up in the street and set on fire. The soldiers who approached to disperse the rioters, the soldiers were greeted with showers of stones, broken glass and other missiles. The officer in command ordered his troops to prepare to fire at the urgent request of a police officer, the order was not carried into effect.

Shortly after 9 o'clock a mob attempted to storm a cartridge factory at Zizkov, one of the suburbs of Prague on the other side of the Moldau. The mob, stationed at the factory, poured a volley into the crowd. It is known that at least two persons were killed outright, and it is feared that others were also killed.

The fire started in the German cafe and the larger part of the blocks of buildings were in flames before 4 o'clock, every engine in the town down district fighting the flames, with others coming from the suburbs.

On both sides of Third street from Oliver to Locust are ink and paper houses and job printing establishments. On the north side of Locust is the factory building of the American C. & G. Railroad Printing Co., employing several hundred men and girls. Simultaneous with the spread of the flames to the east side of Third street the flames jumped across the tracks and reached the building in this street since the eastern Locust street front of the building was in full flame.

There was a stampede among the people on the top floor, but fortunately all succeeded in getting out without any injury as far as could be learned.

In the Sawyer Paper Co. there are 500 girls. These were scattered all over that neighborhood by the time the flames arrived. Many were in hysterics.

The building adjoining that of Sawyer on the south is occupied by the Adelphi Insurance Co. and Fidelity Mutual Co. Adjacent to the latter on the south is the structure occupied by the Woodward-Turner Printing Co. The rest of the insurance building caught fire and so did that of the Woodward-Turner Co.

For a time so rapid and fierce was the progress of the flames that it appeared as though both these large buildings would be destroyed with their entire contents.

The firemen were handicapped in fighting the fire by reason of the narrowness of the streets and the huge web of telephone, telegraph and electric light wires that were strung in front of the upper parts of the buildings.

At 4:30 p. m. the firemen had the flames under control, confining it to the buildings named. No approximation of the loss can be made now as to the amount of many thousands of dollars has been done to German firms, clubs and other institutions having German proprietors or patrons. No performance was given at the German theater.

The constant cry of the rioters was "down with the Germans," "down with the Jews." Ladies venturing on the street were obliged to wear the star tri-color in order to avoid being attacked. German homes are being hastily removed by their owners and replaced with Czech inscriptions. Nobody dares to enter in Germany.

The Kinsky palace was plundered, the floors torn up, the windows thrown through, the windows, hewed in the street and set on fire, the mob preventing the fire brigade from approaching.

The Wenzels-Platz, where the revolutionaries had their headquarters of center of excitement, is about 80 yards in width and 750 yards in length and will hold a hundred thousand people.

The police and the military have made 200 arrests and it was reported Wednesday night that altogether 80 persons have been injured.

At the United States consulate the American flag was hoisted. It is said that the rioters were organized by a secret society animated by hatred of Germans and Jews.

Shortly before midnight there were fresh disorders and two shops in the Pilsen district were open and pillaged. The military patrols were dispersed by the plunderers. Disorders are reported in various other suburbs. At Weisberg the rioters sprinkled a shot with dynamite and lit it on fire. At Libeck, 31 persons were arrested. Another gang plundered a liqueur saloon; and shortly afterward the patrol found 30 persons lying drunk in the street.

P. Sawyer Paper Co., at the southwest corner of Third and Locust streets. The fire was started in the basement and surrounding buildings are threatened by the burning embers. The loss will be heavy.

Within a few minutes after the flames were discovered, owing to smoke from the second story of the Sawyer building, they leaped across the street to the three-story building on the south east corner. The ground floor of this building is occupied by the Brown & Clark Print Co. The second is occupied by the Commercial Printing Co. and Flammer & Grahl, bookbinders, occupy the third.

The upper floors of the building were filled with girls employed in the bindery, a printing office, and these had barely time to put on their wraps and run down stairs when the flames and smoke rolled in through the windows and spread rapidly through the building. The fire started near 10 o'clock, and the larger part of the blocks of buildings were in flames before 4 o'clock, every engine in the downtown district fighting the flames, with others coming from the suburbs.
